CHECKLIST

Personal dosimeter result checklist

- [ ] Confirm the wear period matches the dates you actually wore the badge
- [ ] Check your name and employee number are correct on the report
- [ ] Note the deep dose value and compare it to your previous cycles
- [ ] Look for any shallow dose entry and consider what might have caused it
- [ ] Add the current dose to your year-to-date total
- [ ] Confirm your cumulative dose remains below your site's investigation level
- [ ] Write down any unusual work or incidents during the wear period
- [ ] Sign and return any required acknowledgement form
- [ ] Raise questions about unexpected readings with your radiation protection supervisor
